

Vehicle panel vibration damping material with Low specific gravity

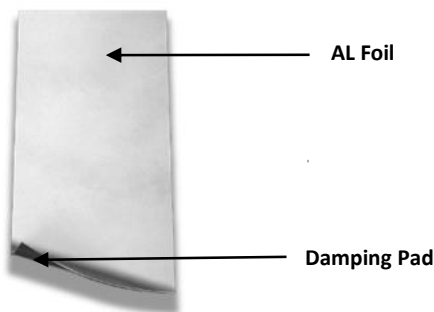

Product overview

Shinsung's 3010 product line is a vehicle panel (side, door, quarter and roof panel) vibration damping material based on butyl rubber. This sheet formed product backed with aluminum foil performs superior damping on driving and door shutting despite Low specific gravity.

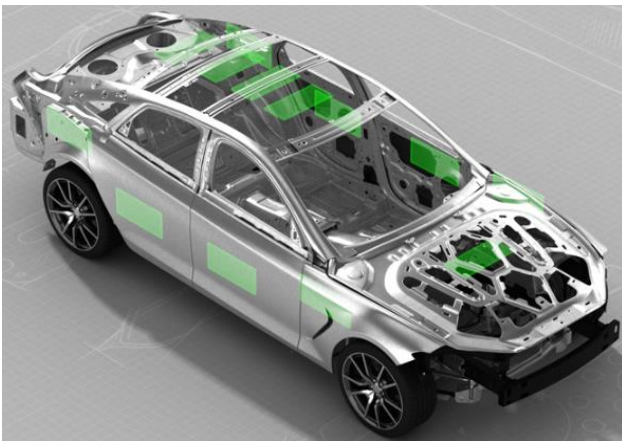

Technical Data

* Appearance	Solid
* Color	Black
* Specific Gravity	< 0.97 ± 0.05
* Peel strength	> 49 N/25mm
* Shear strength	> 1.2kgf

Product Model

Application Method

1. Apply this product after detaching release paper
2. Be sure to adhere this product tightly to the substrate
3. Paint/ Trim shop use

Storage method (storage conditions)

1. Storage temperature: Below 30°C
2. Validity: 180 days from date of manufacture
3. This product contains many chemical materials. When exposed to direct sunlight and high temperature for a long time, deterioration of physical properties. Therefore, it should be stored away from heat sources and direct sunlight. In addition, thorough first-in-first-out is required depending on the storage period.

Additional Information

All of the above information is based on our knowledge and experience. we recommend to carry out sufficient reviews with us about using beyond technical purpose.
